Contract – C704 Instrumentation & Monitoring Contract

I would like to take this opportunity to personally thank Sixense Ltd and specifically the team which has, over a number of years supported the delivery of Crossrail. Your company's contribution through the main C704 contract, through earlier contracts within our supply chain, and through your continued support with the satellite interferometry has proved invaluable.

As we approach the opening of Crossrail, one of the unseen successes of the project has been our ability to deliver the underground spaces without any appreciable settlement impact to the infrastructure above. This had represented one the greatest delivery risks and we are indebted to Sixense for your skills, experience and professionalism in supporting our project.

Please pass on my thanks to your staff and suppliers alike.

Yours sincerely,

**Simon Wright OBE
Chief Executive**

MOVING LONDON FORWARD
